Project Delivery:

Design/ Build

Bellingham Marine France build a metal frame dock Unideck® marina in Port Saint Jean, based in la Ciotat between Marsella and Tolon.

Bellingham Marine France made the renovation of the port which included a 200ml of metal frame dock Unideck®. The pontoons have only 1m wide, enough for the internal agitation of the port and the simultaneity of boat owners. This is a small marina for less than 70 7-8m boats.
