

VALENCIA YACHT PORT

Valencia, Spain

RELEVANCE:

Construction of a worldclass marina facility with CyesMaritime Works

Valencia Yacht Port was designed and built by world renowned marina constructor Bellingham Marine in partnership with Cyes Maritime Works.

The marina is located in the basin extension of the existing Royal Yacht Club of Valencia in Spain. Approximately 230 berths cater to yachts 20m – 100m.

CLIENT /OPERATOR:

Private

Completion of phase one was scheduled to coincide with America’s Cup 2007 being held in Valencia.

TIMELINE:

2007

Bellingham Marine was chosen for the project based on the company’s experience and reputation in the industry. The developers wanted a moorage system that would set the stage for a world class megayacht facility – providing megayacht owners, captains, and crew with desired services and amenities.

QUALITY CONTROL:

ISO 9001:2008

PROJECT DELIVERY:

Design /Build

It was also important that the awarded constructor be able to deliver a fast tracked project.
